

Can you help with our cabin revamp?

If you've been seeing our facebook page in the last 6 weeks you'll have seen that we have started a project to revamp the cabin. It is looking a little bit tired and had become a bit of a dumping ground, losing its purpose.

Over a few group sessions at the garden we have started to clear the clutter and are starting to imagine what it could be with a vision and TLC.

Now, if money were no object we could turn it into quite an impactful indoor space at the garden - a haven for when it rains, a space for workshops, meetings and hanging out.

So, until we have loads of money/ the resources we'd use this money to buy, we will be keeping it as simple as possible. That's where you can come in.....here's what need to help us transform this beloved space into its full potential:-

Are you a project manager by trade who could share some basic skills to help us manage this project and teach us skills which we could then transfer into other parts of running and managing our community garden?

Do you run a gardening, decorating or home decor company who could donate paints or flooring for the inside or varnish to maintain the outside of the cabin?

Do you have a kitchen company who could donate any materials to help us make a more functional kitchen to make drinks for the volunteers and guests of the garden?

Do you have any excess quality wood/pallets which we could use for the repairs of the shutters, door frame or make chairs and tables from?

Do you have any time to volunteer and help us revamp the cabin - we're looking for cleaners, decorators, fundraisers, relationship builders and any other skills you think you could bring to the project. You can donate as little or as much time as fits in with your schedule and other commitments.

Do you have any spare cash that you'd like to donate to help us with the renovation?
Can you share this with any like minded people who could possibly help us?

Thank you in advance for any help you can give the garden to help us help the people and plants bloom and thrive.

Follow our Facebook page for the latest news and updates.
